

Heat Recovery Ventilators (HRVs)

# Flexibility in Perfect Form

## Fantech

For over two decades, Fantech has been developing innovative world class ventilation solutions. From the beginning, we've been committed to being the leader in the air movement and ventilation Industry. Today, our products continue to play a significant role in creating healthier and more energy efficient homes and work environments.

## Heat Recovery Ventilators (HRVs)

Flex HRVs are specifically designed for small and multifamily applications such as town houses, condominiums and apartment buildings. With its compact top port design featuring 5 inch oval collars and the included EZ-Mount<sup>™</sup> wall bracket, the Flex installs in spaces as small as 24 inches, such as a closet or maintenance room.

Unlike traditional HRVs that require excessive power to meet supplemental ventilation needs, the compact, yet powerful Flex HRVs allow for sizing based entirely on principal ventilation requirements. With its exclusive TurboTouch™ feature, the Flex can deliver up to 50% more exhaust capacity to easily meet supplemental ventilation needs whenever additional airflow is required.

## Flex HRVs offer an exceptional combination of Performance, Design & Installation benefits, including:

#### Winter Guard™ <

Built-in defrost system provides smooth, reliable operation even during the harshest winters.

#### Convenient Access <

Top-mounted ports with unobstructed front access allow for easier duct connectivity.

#### Powerful Package <

10% smaller than comparable units and 5% lighter than the other brands while providing up to 50% more exhaust capacity.

#### Easy Maintenance <

All serviceable internal components, including core, filters, fans and electronic board are easily accessible and can be fully removed in under 5 minutes for complete service.

#### >Turbo Touch

The TurboTouch™ feature delivers up to 50% more exhaust capacity.

#### >Aluminum Core

Provides superior heat transfer capability in a smaller package.

### >Accurate Measuring

Patented integrated airflow measurement system allows for rapid and accurate reading of airflow and eliminates the need for an external flow meter.

#### >Quick Connect

Removable quick connect terminals provide easy & convenient electrical connection.

The durable EZ-Mount™ wall bracket allows for an effortless, one-person installation.

## Feature-Packed & Designed for Multi-Family

Quite simply, Flex HRVs are easy to install and operate, and deliver an unbeatable combination of improved air quality, energy efficiency and reliable performance year after year.

#### > Flexible

Ideal for multi-family units as it can fit almost anywhere (such as in a 24" closet space)

## **>**Compact

Smallest HRV in its category

#### > Advanced

Features the latest German manufactured, factory-balanced EBM "Radical" fans

#### > Quiet

New technology drastically reduces noise and operation costs

### >Lightweight

5% lighter than comparable units

#### > Powerful

TurboTouch™ provides up to 50% more exhaust capacity than any other HRV

#### > Quick to Install

Includes an EZ-Mount™ wall bracket that saves time and money

#### > Reliable

Backed by the best all-around warranty in the industry

## Here for You & Your Customers

We believe in providing complete customer satisfaction for both you and your clients. Our service team has the knowledge, skills and experience to support your needs, serve your customers and exceed your expectations. We strive to build lasting relationships that stand the test of time.

## > FLEX SPECS

	SPECIFICATIONS	FLEX 100H
Ventilation	Apparent Recovery Efficiency 32°F (0°C), 62 cfm (30 l/s)	74%
	Apparent Recovery Efficiency -13°F (-25°C), 62 cfm (30 l/s)	75%
	Sensible Recovery Efficiency 32°F (0°C), 62 cfm (30 l/s)	62%
	Sensible Recovery Efficiency -13°F (-25°C), 62 cfm (30 l/s)	62%
	Max. Continuous Ventilation	106 cfm
	Recirculation Mode	YES
Physical	Length	21.5" (546 mm)
	Width	14.5" (368 mm)
	Height (excluding ports)	15 5/8" (397 mm)
	Ports location	4 on top
	Weight	39 lbs (17.7 kg)
	Duct diameter	5" Oval (125mm)
	Quantity of Fans	2
	Fan Type	EBM Radical
Installation	Wall Bracket	YES
	Pressure taps to balance air flow	YES
	Balancing dampers	YES
Electrical consumption & wall control	Electrical consumption (low speed)	More than 1 CFM/Watt
	Wall control compatibility	MDEH1, RTS2, EDF1R, EDF5
Warranty	Parts	5 years
	Core	Limited lifetime
	Fan	7 years
