NOMENCLATURE

RPT..... Repeater Relay
 BT Bluetooth

DESCRIPTION

The Wireless Bluetooth Repeater model is a Gen 2 secured version of our wireless activation system. This device will extend the range of the Bluetooth wireless devices and ensure that there are no false activations due to RF interference. The RPT - BT works with a family of compatible new secured Bluetooth activation devices, (WMSRB - BT, REC - BT, WT - BT, and RPT - BT). The RPT - BT receives a secured Bluetooth signal to the paired devices listed above and re-transmits the signal for longer range. The RPT - BT is installed in a standard 110v outlet in the direction needed to extend the range of the Bluetooth devices up to a maximum of 50 - 70 feet.

TECHNICAL DATA

OPERATING RANGE 50 - 70 feet

FREQUENCY 2.4 - 2.48MHZ

APPLICATIONS

The RPT - BT is a range extender that is plugged in to a standard 110v outlet at a range of 50 - 70 feet from other paired and compatible Bluetooth D'MAND® devices.

This is compatible ONLY with ACT Bluetooth designated products, (REC - BT, WT - BT, WMSRB - BT, RPT - BT). These are the only compatible devices.

You can pair up to fifteen (15) ACT Bluetooth products (above) to each REC - BT Bluetooth receiver.

These are INDOOR USE ONLY and cannot be used in areas that may have direct exposure to water or extreme heat.

DIMENSIONS

WARRANTY
