(1) Powder-Coated Wall Vent w/
Screen & Damper and (1)
Screen Only
SIZE: 6"

(1) Inline Damper
SIZE: 6"

PRODUCT HIGHLIGHTS

Upgrade your ventilation system with this complete HRV/ERV installation kit, designed for durability, airflow control, and a clean exterior finish. Ideal for residential or light commercial applications, this kit includes all the essential components needed for efficient air exchange.

What's Included:

- **(1) Powder-Coated Wall Vent with Screen & Damper (Labeled Exhaust)**
Combines pest protection with integrated airflow control. The built-in damper helps prevent backdrafts while maintaining optimal ventilation performance.
- **(1) Powder-Coated Wall Vent with Screen Only (Labeled Intake)**
Provides reliable exterior termination with a protective screen to keep out debris and pests while allowing unrestricted airflow.
- **(1) Inline Damper**
Installed within the duct run, this damper offers additional control over airflow direction and volume, improving system efficiency and preventing unwanted air movement.
