

MCB Series Custom Square to Round Duct Transition

HVACquick's MCB Series:

Our Custom Build-To-Order Duct Transition Series is a great solution for almost any application requiring a round duct connection.

Available in sizes to fit 4, 5, 6, 8, 10, 12 and 14 inch round ducts. The MCB has been designed to be customizable in rectangular dimensions, is entirely constructed from 22-gauge galvanized steel and can be ordered with optional mounting brackets.

The Custom MCB Box comes assembled. The duct adapter and optional mounting brackets need to be attached with the provided screws before it is ready to be installed on site.

Note: shown with and without brackets

Features:

- Straightforward, Built-To-Order Transition for almost any application
- Rectangle to round transition allows connection from rectangular ducts and grilles to round ducting
- Available in a wide range of duct connection sizes from 4, 5, 6, 8, 10, 12 or 14 inch diameter
